- Rechargeable LED flashlights
- 45kVa AC generator
- Vernier ice detector
- Snow ski fixed parts
- Wire strike protection system

Interior:

8 passenger configuration in Tan leather.

Forward - two aft-facing, VIP single seats, either side of a custom made refreshment cabinet with storage, entertainment centre and phone;

Mid cabin - two forward-facing VVIP captain's chairs;

Aft - forward-facing, 4-place divan.

Espresso carpet. High gloss, dark wood veneer cabinetry with Light Aged Gold plate accessories.

Electric limo screen separating the cabin from the flight deck.

The custom interior was designed to minimise noise, with all cabin furnishings, headliner, window areas etc., mounted to the airframe through sound/vibration isolator mounts. Other features include Two Zone Climate Control; VIP entertainment system with Airshow type mapping display on 15" monitor; CD/DVD, satellite radio and iPod capability. All operated by menu driven touch screen controller. Four speaker sound system. Source switching and volume controls in the two central VIP seats, with 8 headsets located in the primary cabin seats. Central VVIP seats are IFEEL users with administration rights, able to configure the system, function check and set environmental features. Communications from cabin to cockpit can be conducted through IFEEL and to enable the AirCell satphone.

Exterior

White Pearl over Mid Grey with India Red and Montreal Blue stripes.

Location: Kazakhstan
